INTRODUCING PARKER

## PARKER BRAND - BETTER THINKING

George Parker believed it was always possible to make a better pen. It's what drove him to patent his first leak-free fountain pen in 1888 and it's the philosophy that motivates the constant refinement of Parker pens today.

Iconic details like the arrow clip and the hand-assembled, Ace-emblazoned nibs, are anchored in a heritage of craftsmanship, driven forward by the belief that writing with a finely crafted instrument can enhance and deepen your thoughts. It's this commitment to quality that has made the Parker name synonymous with excellence in fine writing.

With years of experience and innovation, Parker's commitment to quality has ensured that each pen delivers the best writing experience for when it matters most. For better first thoughts, for better final drafts, for better thinking, you don't just need a pen, you need a Parker.

## ENDLESS FLOW OF INSPIRATION.

To fuel your spirit of invention, Waterman inks and refills have the ultimate pedigree.
From the earliest days when Lewis Edson Waterman invented the first reliable fountain pen in 1883,
quality and innovation have mattered. In 1936, Waterman introduced the first ink cartridge.
in 1947, Waterman surprised the world by launching the Pentabille, its first ballpoint pen with 5 interchangeable colors.
Whether you write with a nib, ballpoint, fiber tip or rollerball, you can always count on WATERMAN quality.
So keep an eye on your ink level, and never run out of fresh ideas.
